

## HEALTH & SECURITY ADVISORY SERVICES | HOUR BY HOUR SERVICE ON-DEMAND

MedAire Advisory Services is an hours-based range of on-demand support and consultation for health or security solutions. Understanding the unique challenges and demands flight departments face, MedAire Advisory Services are designed to level up support and guidance. These services focus on enhancing operational performance, improving crewmember and passenger safety, and addressing health and security risks throughout your operations.

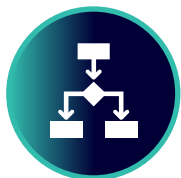

### KEY FEATURES OF OUR ADVISORY SERVICES

- ▲ **Comprehensive Consultation:** Our team of experts collaborates with you to better understand your organisation's specific needs, develop tailored medical and security initiatives, and offer data-driven insights to enhance operational resilience.

- ▲ **Holistic Support:** Our on-demand services cater to a broad range of requirements, from simple consultations to in-depth projects involving coordination among various stakeholders. The versatility of our approach ensures a seamless and effective response, regardless of the complexity of your needs.

- ▲ **Resource Flexibility:** We allocate the necessary resources and expertise to handle non-standard requests and complex engagements capably. This flexibility allows us to provide the level of expert care that your operation requires.

- ▲ **Training and Preparedness:** Support for comprehensive mock drills and training exercises designed to enhance your crew's preparedness for real-world emergencies, ensuring they have the skills and confidence to address health and security challenges as they arise.

- ▲ **Tailored Solutions:** Every organisation has unique challenges and needs. Advisory Services are designed to be adaptable, ensuring that we provide the most appropriate support for the specific requirements of your business aviation operations.

## BENEFITS OF MEDAIRE ADVISORY SERVICES

### WE OFFER:

- ▲ Customised support that meets your operation's needs
- ▲ Quick turnaround times on requests
- ▲ Experience. With 40+ years of experience providing advice & assistance in the aviation sector, we have the knowledge and experience to assist you and your operation.

With our expert Health & Security Advisory Services, your flight department can rely on customised, comprehensive support to address a wide range of health and security risks – ensuring an elevated level of care for your crewmembers and, ultimately, your passengers.

## HOW CAN I USE MEDAIRE ADVISORY SERVICES?

### Operational Resilience Support: Expert advisory for enhancing efficiency and resiliency in business aviation operations.

- ▲ Custom Strategies: Tailored health management plans to improve overall crew health and wellbeing, leading to increased operational efficiency.
- ▲ Ground Staff Optimisation: Providing consultation on best practices and protocols for ground personnel, optimising operational safety.
- ▲ Specialised Assistance: Delivering expert consultation for non-standard and complex health or security situations, ensuring comprehensive support beyond everyday services.

### Security Guidance: Proactive and responsive security advisory services for business aviation protection and risk mitigation.

- ▲ Downline Security: Advising dispatch on security concerns at crew hotels, airports, and other operational locations.
- ▲ Executive Protection & Secure Transport: Providing comprehensive plans on personal security for high-profile passengers, including secure transportation in high-risk situations.
- ▲ Aircraft and Asset Protection: Offering guidance and support on securing aircraft, hangars, FBOs and other valuable assets, ensuring their safety and security throughout operations.
- ▲ Security Guards and On-site Supervision: Advising and coordinating security personnel and teams for specific engagements, guaranteeing exceptional on-ground protection during business aviation operations.

**Health and Wellness Solutions: Advice to address complex health-related issues, everyday habits for preventative care, and personalised policy development for your organisation.**

- ▲ Destination Medical and Security Evaluation and Site Audits: Comprehensive assessment and recommendations for location-specific health and security concerns, ensuring the highest safety and preparation for every trip.
- ▲ Medical Equipment Review and Recommendations for Sensitive Passenger Health Histories: Expert consultation on the appropriate medical equipment tailored to accommodate passengers with special health needs. We also provide custom medical kits with specialised medications and equipment based on passengers' health profiles.
- ▲ Concierge Medical Professional Services: Access to experienced Concierge Medical Professionals, such as doctors and nurses, who travel with your passengers to provide immediate, tailored medical care and support throughout the journey. These medical professionals are backed by MedAire's robust global network of over 90,000 local providers, ensuring seamless access to expert care whenever needed.
- ▲ Expert Guidance on Health, Nutrition, and Fitness: We offer comprehensive advice on workplace ergonomics, crew rest facilities, fatigue management, meal planning, and hydration strategies. Additionally, we provide consultation on designing and incorporating tailored fitness and exercise programs to maintain crewmember's physical health and wellbeing.
- ▲ Substance Abuse Prevention and Support: Consultation on establishing prevention policies and support programs to promote a safer and healthier working environment.
